SUMMARY

[BTech Graduate in Electrical and Electronics Engineering | Web Development Enthusiast]

Dynamic and motivated BTech graduate in Electrical and Electronics Engineering from Nalanda College of Engineering,Nalanda. Possess a strong foundation in engineering principles and a keen interest in web development. Proficient in HTML, CSS, and JavaScript, with a passion for creating responsive and user-friendly websites. Eager to apply my technical skills and collaborate within a dynamic team environment in the field of web development.

EXPERIENCES

Designed and developed a professional resume website to showcase qualifications, experiences, and projects, utilizing HTML, CSS, and JavaScript.

PROJECT

The 'Temperature Controlled Fan' project, developed during my final year of college, integrates hardware and software to create an efficient cooling system. Utilizing an Arduino Uno microcontroller as the brain of the system, along with a temperature sensor (such as a TMP36 or DHT11/22) to measure ambient temperature, the project dynamically adjusts the speed of a fan to maintain a preset temperature threshold.

TECHNICAL SKILLS

- html
 - css
 - JavaScript
 - react.js
-

CERTIFICATES

- INTRODUCTION TO DATA SCIENCE
- Matlab Programming
- Soft Skill Development

- **Technical English For Engineers**
-

EDUCATION

Bachelor Of Technology

Nalanda College Of Engineering,NALANDA(2019-2023) CGPA-7.56

Higher Secondary(CBSE)-PCM

Shivam International School,Patna(2019) Percentage-72.6

Secondary(CBSE)

Shivam International School,Patna(2016) CGPA-8.6

LANGUAGE

English - Proficient(Read,Write,Speak) **Hindi** - Proficient(Read,Write,Speak)
